FOR STATE SENATE,
HENRY GEORGE,
of Graves County.

FOR REPRESENTATIVE,
P. R. HAYES,
of Hickman county.

FOR STATE SENATOR.

We are authorized to announce Mr. W. WEBSTER, a member of the People's Party, as a candidate in opposition to Hickman, and we hope he will be elected to the next Senate of Kentucky.

THERE is no disposition on part of some persons to confound the Alliance with the people's party or third party movement. The aims and purposes of the two are a complete variance and do not even justify a comparison.

The Third Party favors the 8 hour law—that is, a law by which laborers shall not be required by contract to work longer than 8 hours a day. How would such a law suit the wheat harvesters of Kentucky? Let the Third Party candidates explain.

HON. W. J. STONE has been busy making speeches in the upper counties of this District for the State ticket. All the campagners know Fulton County demeans of the true blue type, who not only know their duty but will do it by turning out en masse on election day.

MR. BLAINE is worse.

Mr. Blaine is better.

Mr. Blaine is not a candidate.

Mr. Blaine is for Harrison.

Mr. Blaine has withdrawn from the political arena, leaving the Premier in retirement.

There is something for everybody.

TAKK eight in Ohio the fall between the Republicans, headed by high tariff McKinley and the Democrats, headed by George, and with "Tarrif for Revenue" and "Free Silver" for their war cry, is of nation-wide interest. The victory in Ohio will fall mean a Democratic victory of cyclonic proportions for president next year. The Democracy of Ohio has a golden opportunity before them. Let us hope that they will rise to the occasion.

A number of bad laws had been passed in Congress because not a child had been born in the township for nine years. The members of the Legislature, however, contempnary to express a general though domineering wish that the evil of abandoned schools may not be added to the evils of the school term. If they had schools in the agricultural districts where the farmer can't afford to pay taxes, it is hard to believe these schools will be kept going after the farmers are gone.

The danger of a bolt from Campbell by the democrats of Hamilton county has passed, and from all accounts the party in Ohio was never stronger and more determined. The Cincinnati Courier, although having fought against Campbell's renomination, is now aiding him, and his supporters are upon the continued opposition of Hamilton county democracy. The rich men will always have some material advantages over the poor one, and with precedents to the contrary is a check and balance.

Deserves Chastening:

Some Democrats think that the Democrats of Kentucky deserve the chastening effect of a defeat, a chastening to bring them to a proper sense of their duty.

The Congress of the United States has done its best, but the mass of the people here have rallied throughout the State in extreme heroism, that chastening may come sooner than some would.

It Saves Money.

If you vote for the new Constitution it will save the tax-payers money, because it stops special legislation, and limits sections of the legislature to 60 days, thus saving \$800,000 to \$100,000 each session. It prevents the granting of special privileges.

It subjects to taxation properties worth millions of dollars herefore "excepted." And yet certain property, courthouses, &c., are justly exempted. With this exception, all property is taxed alike.

A Pure Ballot.

Kentucky is the only State in the Union which retains the vicious system of voting. Not a State has ever changed its system back to that system. Why?

Because experience proved that ballot voting was the fairest and purest. If you prefer voting by ballot, vote for the new Constitution.

Besides, under the new Constitution there is to be not more than one election every year, and elections to be held November instead of in August. August is a bad time for an election, and November a much better time.

Restrictive Corporations.

The new Constitution puts reasonable restrictions on the corporations, trusts and combinations, holds such clusters always subject to control or inspection, and it is for this reason chiefly that these corporations have got on the stump many of the attorneys and makers speaking against it. Of course there are those on the stump who are honest, and who are in favor of the new Constitution, but many of the speakers are known stockholders and agents of these corporations. Again, the State is flooded with printed literature, sent out from Louisville by the various departments, each trying to defend the new Constitution, which, of course, costs thousands of dollars. Who furnishes the money?

Railroad Politics.

Some of the Third Party speakers in the case will with their propose to remedy the ill of the life, and the country in general, and also to put an end to the railroads of childlessness, that a hog of gold is at the end of the rainbow.

An honest man are they not bound to see that this can only be the effect of their votes for the Third party candidates?

This Third party has impelled, it is said, more than one hundred thousand to speak up into this State from Kansas and Illinois, and to go to the polls to vote for the Republicans, and to nominate a candidate for the Governorship.

If the Alliance farmers want to elect the Republican ticket in Kentucky, as they shall, who pays the expenses of this horde?

If the Alliance farmers want to elect the Republican ticket in Kentucky, as they shall, who pays the expenses of this horde?

It may be a pleasing delusion to a man who is in field, his farm house, his garden, his library and stories to speak and work. Will Kentucky farmers reenter to the manipulations of this horde of Kansas politicians? Many Kentucky Alliance leaders like Gardner, their President, and Dr. Clark, their choice for Governor, and Mr. Clay, and others are on the stump bravely battling for the Democratic ticket, determined that the Alliance will not be beaten.

These Kansas politicians of the Third party, who have invaded Kentucky for the purpose of learning Kentucky Democrats and their ways, to the mortification and disappointment of express a general though domineering wish that the evil of abandoned schools may not be added to the evils of the school term. NEXT MONDAY!

The Danger Flag Hung Out.

Every Democrat to the Rescue.

For the first time in twenty years the Democratic leaders have hung the danger flag, which means that every Democratic voter must go to the rescue next Monday.

The danger flag, which means that the masses have gathered here, prevails throughout the State in extreme heroism, that chastening may come sooner than some would of.

The Last Warning.

THE WORLD'S FAIR.

There can be no doubt of the increasing interest in masters concerning the world's fair. Not only are the people of this country now giving it serious consideration, but the press here has been bringing the words of great men in other nations who are thinking of the same thing.
